WHAT A CUTIE!

Prescott is a typical puppy. He has learned to sit on command and is learning to wait at the door. He is crate trained (now sleeps through the night in a crate), and knows the word "potty". He likes to chase the cat in a playful way. He will probably be a dominant high energy dog, but he's got brains! He chews everything in sight like puppies do. He is a sweetie and brings lots of joy to every day.

We ask that puppies go to homes where someone is home at least part-time to help them with socialization and housebreaking. We also prefer that puppies have a fenced in yard for a safe place to exercise.

GOLDEN DAYS

If you've never been to a Golden Days event, you should visit us at one coming soon near you. There are always lots of beautiful, friendly Goldens and people to tell you about them. And, as you can see, we always have lots of fun!
